

\$10K TOURNAMENT

PRIZE MONEY & COMPETITION RULES

1. Prize Money

The advertised \$13,000 prize pool is based on a minimum of **32 Senior/Open teams** entering and participating in the tournament.

Placing	32+ Senior/Open Teams	Fewer Than 32 Teams
1st Place	\$10,000	\$5,000
2nd Place	\$2,000	\$1,000
3rd Place	\$1,000	No prize money

The applicable prize structure will be determined by the final number of eligible Senior/Open teams participating in the tournament.

2. Female Players

Senior/Open teams may include both male and female players. There is no requirement for teams to field a specific number of female players.

For this tournament, female players will receive one additional bonus point (+1) for every successful scoring situation, including:

- Scoring outside the square
- Scoring inside the square
- Successfully scoring by touching one of the three red markers during an eligible counter-attack

Example: If a scoring action would normally be worth 1 point, a female player completing that action will earn 2 points. If the scoring action would normally be worth 2 points, it will be worth 3 points.

3. Tournament-Specific Female Scoring Rule

Under the traditional Offside Tag mixed-team rules, the female bonus point may apply differently. However, the \$10K Tournament will use the tournament-specific rule above.

This adjustment has been introduced because teams are not required to have an equal male/female player split. One team may choose to field one female player, while another may choose to field several.

The number of female players selected and used is therefore part of each team's own tactical and team-selection strategy. All teams will compete under the same scoring rules regardless of their chosen male/female composition.

4. Acceptance of Rules

By registering for the \$10K Tournament, teams acknowledge and accept the tournament's prize-money structure, scoring system and competition rules.

Offside Tag recommends that all players and team organisers review these conditions before completing registration.
