

Senior Club Rooms access guide.

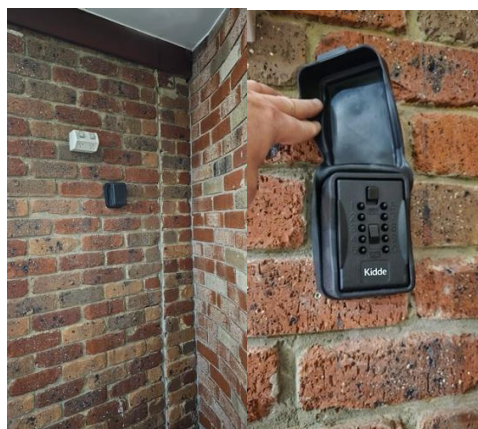

Gate access

The gate to the driveway has two padlocks on it. One is the key padlock that requires the council S100 key (found in the external key safe). The other is a combination lock that uses the code 1962

External Lock Box

There is an external key safe located on the brick wall outside the boardroom next to the external powerpoint.

Code for this safe is 125689

The keys in this safe are:

- S100 – council key will open s100 padlocks used on all gates, bin cage, utility cupboards.
- V24440 MK6.18 Sub Change Rooms – Opens change rooms, Referees Room, First Aid Room
- Store room key – operates the equipment room roller door
- Pitch Lighting key – turns on the lights on the grass pitch

Alarm panels

There are two alarm panels. The first is in change room 1 next to the side door.

The second is in the main entrance to the club room itself.

Please contact Stuart Milne for your own personal or department use alarm code.
